

## Case Studies: 2024

### Description

I feel that one of the greatest downfalls of Christians' is that many don't know what they actually believe and why. In 2024 I believe that God has led me to do a case study of each of the main individuals in the Bible to take an honest look at who the person was, what God actually called them to do, what they did, and why. I believe that this will be freeing for me, and others on the journey to understanding and applying God's principles in our lives. I pray that through this journey we will re-evaluate how we see ourselves, how we see God, and even how we understand the passages and people of the Bible. I'd recommend that as you read the case studies, you re-read the entire passages, and pray that God would reveal what you need to see to fulfill his purpose for you life.
